# Growing Teachers Throughout the Seasons

Techniques and Learning Connections for Growing Foods at Schools During the  
School Year in Almost Any Climate

United States Department of Agriculture  
National Institute of Food and Agriculture

## DATES:

Choose March 5, April 2, or April 3

## TIME:

9:00 a.m.–3:00 p.m.

## LOCATION:

Franklin County Extension  
2548 Carmack Rd, Columbus, OH  
43210

## CONTACT:

Jamie Rickle [rickle.7@osu.edu](mailto:rickle.7@osu.edu)

Farm to School Program Coordinator

THE OHIO STATE  
UNIVERSITY

COLLEGE OF FOOD, AGRICULTURAL,  
AND ENVIRONMENTAL SCIENCES

## Train the Trainer

Growing Teachers Throughout the Seasons (GTS) is a successful way to get into schools and engage youth that is not only data driven, but teacher informed. GTS covers 3 growing methods for school gardening September-May: seed starting, raised bed, and hydroponics. The curriculum follows a growing timeline resulting in a new harvest each month. The guidebook illustrates what to do and what to expect, while also providing learning connections to language arts, science, math, technology, and arts. Each month students can also be involved by preparing recipes for a taste test.

Join us for a hands-on training experience. You'll learn how to use both the curriculum and the supplementary Scarlet Canvas course. Attendees will take home their own guidebook and seed packets for vegetables grown in the guide.
