# Tomato

## Technologies for Tomorrow

**AUGUST 16** • 5:30-8 p.m.

Come join us for an informative field night focused on the technologies of tomorrow for your home or commercial tomato plantings, organized by the OSU South Centers Soil, Water, and Bioenergy Resources program. Featured speakers will include Brad Bergfurd of Brandt Agriculture, and Ohio State University researchers Drs. Rafiq Islam and Arif Rahman and Thom Harker.

Highlights/focus areas of this event will include:

- Nano fertilization and drip irrigation
- Salicylic (aspirin) acid and hydrogen peroxide as chemical inducers
- Public health benefits of tomatoes
- Tour of the South Centers tomato and other field trials

This event will be held in person at The Ohio State University South Centers in Piketon, Ohio. A meal will be included in the \$20 cost of admission. Please register by August 12. Cash and checks can be accepted at the door, or you can pre-pay using a credit card during the registration process.

Register by visiting:

**[go.osu.edu/tomatotech](https://go.osu.edu/tomatotech)**

**LOCATION:** OSU South Centers  
1864 Shyville Road  
Piketon, OH 45661

**COST:** \$20 (includes meal)

**QUESTIONS:** Bradford Sherman
