Identifying the need for filling a position will happen in advance of this process within the county team and with leadership from the Area Leader.

It is critical for consistency purposes that you include the Operations Team Admin Support in all aspects of the hiring process, as we do not have access to this in Workday and do not receive notifications of any kind.

Create Position Description

- The Educator Position Description (PD) is created with collaboration from the Area Leader, Program Area Assistant Director, and Operations Team Admin Support. Please note that the teaching portion of the PD is **required** to be 50% or more.
- Contact your Operations Team Admin Support for examples of comparable positions and assistance with PD templates. [Position Description Template](#)
- **Program Area Assistant Director MUST provide input and approval via email before the position is submitted to HR for posting** (allow time for this). Operations Team Admin Support will assist the Area Leader in obtaining the written approvals.
- Complete the Faculty/Staff Permission to Search Form and send along with the PD to the Director of Extension for approval; it will require further approval from the Dean and OHR (this is only during the “Hiring Pause”).
- No position should be initiated without the prior involvement of the Area Leader and the Director, Operations. Every Educator position MUST be approved by the Director Operations and the program area Assistant Director before a Requisition can be initiated in Workday.
- Refer to: [https://hr.osu.edu/new-employees/employees/orientation/](https://hr.osu.edu/new-employees/employees/orientation/) for common start dates when completing the Position Description. Common start dates are required by the university and are every other Monday. Monthly employees should start on common start date closest to first of month, but no later than middle of month due to payroll deadline. Talent services have been allowing students to start every Monday during department busiest time. This may change in the future. HR prefers students to start at the beginning of a pay period.

**Action Items: (Area Leader)**

- Create Position Description Template with input from program area AD
- Receive program area AD approval of PD (via email to attach to the permission to search form)
- Complete the Faculty/Staff Permission to Search Form
- Send both permissions to search form and approved PD to Director of Extension

- For Educator positions, enter Extension Educator in “Job Profile” field.
In “Additional job profiles”, all levels of Extension Educators, must be added (OSU Extension Educator 1, 2, 3, & 4, click on each Educator level).
