Tuition Assistance (Employees & Dependents)

Eligible employees are offered [Faculty and Staff Tuition Assistance](#) that pays instructional, general and non-Ohio resident fees for courses taken at Ohio State, not to exceed specified plan limits on credit hours and dollar amounts.

Supplemental Retirement Account (SRA) (<https://hr.osu.edu/benefits/retirement/sra/>)

Ohio State offers supplemental, voluntary savings options to help faculty, staff and student employees plan for retirement. These options make it possible for you to save additional amounts to meet your retirement financial goals and realize potential tax benefits. Even small amounts of money invested regularly over your career can provide a significant financial resource at retirement.

Most Ohio State employees are eligible to participate in the 403(b) and 457(b) Supplemental Retirement Accounts (SRA). These plans allow you to enhance your retirement savings through voluntary pre-tax (state and federal only) contributions to a Tax-Deferred Account (403(b) plan) and Deferred Compensation Program (457(b) plan).

The university does not make contributions to your SRA. Your contributions are deducted from your pay on a pre-tax basis. Other pre-tax payroll deductions (e.g., health care, parking, local taxes, Medicare, etc.) may affect the amount available to contribute to an SRA. Your contributions and investment earnings grow tax-deferred until withdrawal. You lower your taxable income while working and increase your income at retirement.
